Update on the PSEA session during the Humanitarian Coordinators' retreat 31 May 2016

From 31 May to 1 June, 35 Humanitarian Coordinators were joined by senior officials from IASC partner agencies, representatives from donor governments, and public and private partners at the 2016 Humanitarian Coordinators' Retreat in Montreux, Switzerland.

The annual HC Retreat provides an opportunity for substantive exchange between HCs and key humanitarian stakeholders. The Retreat is a good occasion to share global messages and updates on global initiatives, to receive feedback from HCs on critical issues, and to 'ground truth' potential responses and policy.

the Retreat included in-depth sessions exploring the role of HCs in implementing IASC commitments on protection from sexual exploitation and abuse

IOM DG Swing/IASC Champion on PSEA and UN Special Coordinator on Improving the UN Response to SEA, Jane Holl Lute presented on commitments and responsibilities of Humanitarian Coordinators

PSEA is from now on a standing agenda item at HC Retreats

Contribution to objective 2.1 of our workplan : support to operationalization of AAP and PSEA

Helpdesk

Several countries have been reaching out to the task team to get help when setting up PSEA network at country level

Iraq

The HC has appointed UNFPA as a Lead coordinating agency for PSEA Iraq Network, and WFP AAP advisor has taken a co-lead position.

- first meeting with all UN PSEA Focal points, which are taking on the task on top of their other responsibilities
- draft TORs and Work plan for the next 6 months : no funding request
 - IDP call centre and other field level mechanisms work as complaint lodging mechanisms
 - Victim protection and assistance handled by the GBV sub cluster's victim assistance response mechanism
 - relies on investigation carried out by individual agency
- Objective to expand to non UN stakeholders

Funding ?

Some countries are asking on how to raise funds for a full time PSEA coordinator position :

How to ensure the links are made with AAP to avoid fragmentation ?

How to ensure it is prioritised by the HCT ? How to ensure ownership and sustainability ?

Any other update on workstream 3 ?

- Objective 3.1** Ensure the PSEA workstream complements other PSEA-related initiatives and addresses gaps at field and global levels
- Objective 3.2** Strengthen investigation and protection responses to SEA allegations
- Objective 3.3** Incorporate lessons learned from the PSEA CBCM pilot project into the IASC CAAP
- Objective 3.4** Support issues raised following the CBCM pilots and during the discussion on global SOPs
- Objective 3.5** Interagency awareness campaign
