Guidance Note for Humanitarian Coordinators on CERF Allocations

OCHA has published an updated Central Emergency Response Fund (CERF) Handbook, which describes CERF as a humanitarian financing tool and the activities involved in all parts of the CERF process, from coordinated prioritization, applying for funds to reporting. The Note also provides a comprehensive overview of the strategic foundations that underpin CERF allocations, and of the various steps that RCs/HCs can take to ensure the strategic use of the resources. Below are some specific areas where the involvement of RCs/HCs is expected, with the support of OCHA Country/Regional offices.

1. REQUEST

Decide whether to submit a rapid response CERF funding request allocation. The first key task for an RC/HC is to determine whether to request CERF funding, based on the humanitarian situation.

2. STRATEGY

Define the strategic vision for the CERF allocation. A key role for the RCs/HCs is to articulate their “strategic statement” on the intended use of a CERF allocation, explaining its focus, and how it will make an impact in the operational context, beyond simply providing additional funding to the response.

3. PRIORITIZATION

Lead the process for determining the use of resources. Once RCs/HCs have set a strategy for the use of resources, they should lead an inclusive process to determine the best possible prioritization of CERF funding.

4. ADDED FUNDING

Use the CERF allocation for advocacy and resource mobilization. Beyond providing rapid and strategic funding, CERF is also meant to highlight the urgency for humanitarian action by signalling critical financing requirements.

5. IMPLEMENTATION

Oversee implementation through check-ins & stock-taking exercises. The RC/HC is responsible for overseeing the overall implementation of CERF funding and ensuring that implementation is on track towards the achievement of the pre-defined strategic objectives.

6. REPORTING

Lead an After-Action Review (AAR) and reporting. The RC/HC is expected to lead an AAR, which is a structured discussion at the end of the implementation period that allows the HCT and cluster leads to collectively reflect on what was achieved through the CERF allocation and what lessons were learned.
