

Inter-Agency Emergency Simulation

2nd IAES Facilitator Training in Sandö, 2-5 October 2011

Objectives:

- **Promote wider use of IAES**
- **Train more cadres in methodology**
- **Share experiences among users**
- **Brainstorm on “3rd Generation”**

Statistics: 2010 vs. 2011

	Nov 2010	Oct 2011
Participants Trained	22	25
UN Agency	15	12
IFRC	0	4
NGO	3	4
Standby Partners	5	3
Others (NEMO & Cluster Coord.)	0	2
Female/Male Ratio	7/15	6/19

Innovations Made

- **New structure**: developing materials, conducting simex, debriefing
- **More hands-on tasks**: brief RC, draft injects, present to HCT, debriefing
- **Observed real simulation**: fire-fighter training drill

General Observations

- 1. MSB pulled out all stops, again.**
- 2. Simulation gaining ground as a preparedness tool.**
- 3. Greater experience among trainees (e.g., ECB, IFRC, NEMO)**
- 4. Same training team, better results.**

Participant Evaluations

- 1. Nine out of 13 sessions ranked 4+ on 5-point Leikert scale.**
- 2. Twelve of 13 sessions ranked 3.5+**
- 3. Comments: “engaging; relevant; appropriate; fun; useful; practical.”**
- 4. Key suggestion: run a real simex.**

...outdoor debriefing following observation of the live simulation exercises...

Next Steps...?

- **Continue training in 2012**
- **Improve gender balance**
- **Maintain roster of trained facilitators**
- **Monitor replication by trainees**
- **Evaluate impact of simulations**
