

# Review of the IASC products: invitation to participate

## TAKE A SURVEY!

Since 1992, the Inter-Agency Standing Committee (IASC) has issued policy statements, guidelines, and manuals, which help to set the normative frameworks, common standards and good practice for humanitarian community.

The IASC is now reviewing a selection of IASC products to find out:

**'Are these products known?'**,  
**'Are they used?'**,  
**'How can they be made more accessible?'**

All humanitarian workers are invited to give their views on IASC products using short on-line surveys, available in English, French and Spanish. The surveys are available at:

<http://tinyurl.com/iascreview>

All surveys remain open until end of October 2009.

**Many thanks for taking part**
