

GLOBAL MAPPING OF
EMERGENCY STOCKPILES

Global Mapping of Emergency Stockpiles

Presentation for Task Team on Preparedness and Resilience
13 August 2015

Background

- Launched in 2010 with Logistics Cluster
- *Who has what where*
- Preparedness:
 - Information source for capacities of humanitarian actors
 - Supports establishment of pre-positioning strategies
- Response:
 - Shows availability of supplies for use in response
 - Facilitates requests of stockpiled items

Website

<http://www.humanitarianinfo.org/Stockmap>

The screenshot shows the website's main interface. At the top right, there are language options: English, Français, and Español. The main header features the text "GLOBAL MAPPING OF EMERGENCY STOCKPILES" over a world map background, with a photograph of an orange cargo plane and people in a relief camp. Below the header is a navigation menu with items: Home, Emergency, Administrative Tasks, File Upload, and Sign Out (Jessie COCHRAN). A left sidebar contains a list of filters: Relief Items by Alphabet, Relief Items by Sector, Relief Items by Organization, Relief Items by Organization Type, Relief Items by Region, Capacity Storage, Advanced Query, Reports, Contact Directory, Customs Directory, Quarterly Reports, and New. The main content area is titled "ONGOING EMERGENCIES" with a warning icon. It displays four emergency cards: Myanmar - Naypyidaw (01-Aug-2015), Nepal - Kathmandu (25-Apr-2015), Vanuatu - Port Vila (12-Mar-2015), and Malawi - Lilongwe (14-Jan-2015). Each card includes a small image, a title, a date, a brief description, and a "Read More >>" link. A "More Emergencies >>" link is also present. Below the emergency cards, a section titled "Please select a region to know Who Has What Where" features a map with tabs for All, Africa, Americas, Asia, Europe, and Oceania. The map shows several red location pins in the Europe region. A "Map" and "Satellite" toggle is visible in the top right of the map area.

Evaluation Study

- How can the Global Mapping tool be improved to better support preparedness initiatives?
- Results from Interviews:
 - Link to emergency preparedness tools and activities
 - Mapping stockpiles at national level
 - Information to support donor asks
- User survey
- Case Study

Global Mapping & TTPR

- How can the tool support the work of the TTPR?
- Link Global Mapping tool to:
 - Early warning reports
 - Contingency plans
- Case Studies
- Other ideas?
