

UNHCR – Renewable Energy for Sustainable Living

ENVIRONMENT

**ACCESS TO
SUSTAINABLE ENERGY**

LIVELIHOODS

UNHCR & Safe Access to Fuel & Energy

- Energy historically not a priority area for UNHCR/humanitarian sector
- Increasing awareness of needs along with global recognition of energy & fuel poverty
- UNHCR Global SAFE Strategy 2014-2018
- 3 streams
 - Energy for Cooking (fuel and stoves → protection)
 - Energy for Lighting (household, communal and institutional → protection)
 - Electricity (electricity for livelihoods, communications, solar water pumping, operations)
- National strategies in Burkina Faso, Chad, Ethiopia, Kenya, Rwanda (2014); Djibouti, Nepal, South Sudan, Sudan, Uganda (2015)
