

INFORMING RESPONSES TO SUPPORT DURABLE SOLUTIONS FOR IDPS

19 April 2016

Joint IDP Profiling Service

Informing Solutions Together

Project goal:

To help governments and their development and humanitarian partners to pursue joint responses supporting durable solutions for displaced populations based upon comprehensive and agreed upon evidence in line with the IASC Framework through:

- Agreed upon, tested indicators, tools and methodologies for DS analysis
- Guidance and capacity building material for the use of project outputs

Project structure:

- Leadership: Special Rapporteur on the Human Rights of IDPs
- Technical oversight: Technical Steering Committee
- Coordination and implementation: Joint IDP Profiling Service

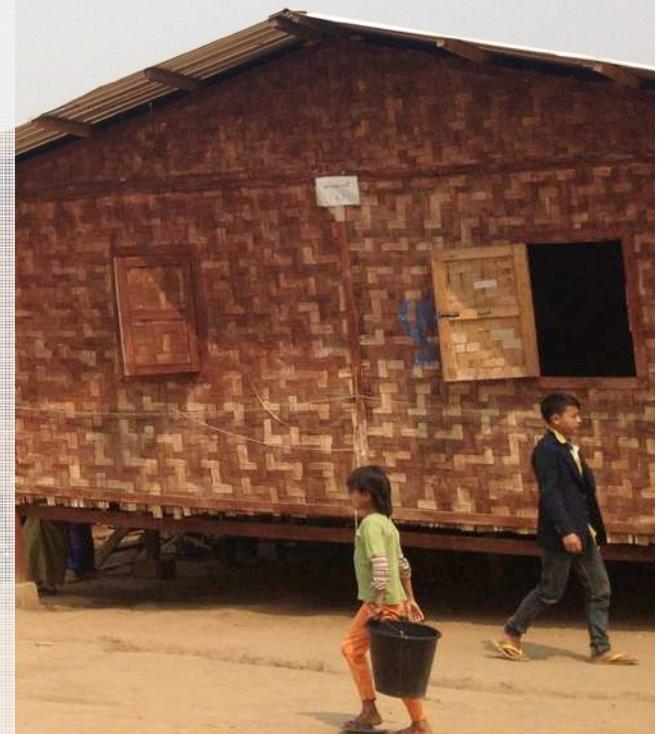

Statehouse IDP settlement, Hargeisa

Ayaha IV settlement, Hargeisa

How will the project support durable solutions?

- Provides concrete, technical tools and guidance for durable solutions analysis
- Highlights the comprehensive nature of durable solutions
- Compatible indicators to inform responses in different phases of a displacement situation
- A joint tool for governments, humanitarian, and development actors to support prioritization, planning and coordination
