Upon request, provide support to country operations through a system of pooling or coordinating capacities , including by working with the humanitarian-development nexus community of practitioners, the Joint Steering Committee, among others.	Strengthen field practitioners by maintaining and expanding the community of practice Network (HDN CoPN).		Continuous. The Network continues to provide an informal space as a connecting hub for country-level and global discussions, sharing knowledge and lessons learned, and bringing together different actors. Its activities are supportive of RG4’s other workstreams, including the development of the guidance on collective outcomes and knowledge management. A survey was recently conducted three years after the Network’s establishment, where interest was expressed for the Network to pursue advocacy nexus, address country-specific challenges/solutions with regards to nexus. Its ToR have since been reviewed to reflect this way forward.	WFP, ICVA	
	Collate and provide information regarding IASC members’ capacities that can be pooled to respond to requests for technical support from the field.		[COMPLETED] A matrix mapping information on the HDPN capacity deployed for country support was built in December 2019 , with the idea to keep it updated . The purpose was to maintain an update on a global overview about HDPN support; to follow the trend of capacities and, quite importantly to support over time, reduce overlaps and cover gaps when required; to facilitate contact between agencies and organisations in respective regions/countries. With the learning from this initiative it was agreed by the group to	Co-Chairs (UNDP, Oxfam) together with all RG4 members	All RG4 members

		<u>NEW DELIVERABLE</u> - OPAG 25 <u>September 2020</u> Put in place a Nexus mentor system	RG4 members supported the evolution of support to countries through a mentoring approach. 		<u>NEW DELIVERABLE</u> - OPAG 25 <u>September 2020</u> Engage with countries (size been defined out of 40) undertaking a Common Country	A concept note was endorsed in February 2021. The sub-group is using a pragmatic approach to connect HQ and the field to support UNCTs that are designing their CCA and CF. Support the system-wide response to COVID-19, notably the IASC Principals decisions, from the nexus perspectives.		<u>NEW DELIVERABLE – COVID-19</u> Develop a shared set of indicators to support the complementary of work around the GHRP, SPRP and the UN framework for the immediate socio-economic response to COVID-19.	[COMPLETED] This was tasked by the IASC Principals at their meeting on 28 April. Indicators were shared with OPAG for review. The RG is incorporating the OPAG's feedback. However, as the SPRP is being revised and as the GHRP incorporated into the GHO, this work has been overtaken by events. Advocacy has shifted from complementarity of plans to resource mobilization. RG4 will shift towards influencing the development of the GHO. OPAG did not prioritize continuation of this Action Point during its 25 September 2020 meeting. 		<u>NEW DELIVERABLE – COVID-19</u> Contribute to reinforcing socio-economic and nexus considerations in the GHRP.	[COMPLETED] IASC principals in their meeting on 17 April agreed to ensure that the GHRP revision process not only looks at the humanitarian needs in the targeted countries, but also has a good reading of socio-economic frameworks and nexus considerations. In reaction to this, RG4 Co-Chairs provided nexus inputs to be considered for the second iteration of the GHRP.	Co-Chairs (Oxfam, UNDP)
