RESPONSIBILITIES:
For the COVID-19 response operation, IFRC
1) Reported against activities using data analysis and
2) Developed a new Plan and Budget 2021-2025 2) Consultations with UN agencies, including other governmental and non-governmental organizations (NGOs), to support the COVID-19 response was also included as a key cross-cutting measure.

WORK STREAM 1 - TRANSPARENCY

Individual - Individual
1) Increased against activities using data analysis and developed a new Plan and Budget 2021-2025 2) Consultations with UN agencies, including other governmental and non-governmental organizations (NGOs), to support the COVID-19 response was also included as a key cross-cutting measure.

WORK STREAM 2 - LOCALIZATION

Individual - Individual
1) Increased and supported multi-year institutional capacity investments in the institutional capacities of all local and national responders, including preparatories, response and coordination.

WORK STREAM 3 - CASH-BASED PROGRAMMING

Individual - Individual
1) Increased and supported multi-year institutional capacity investments in the institutional capacities of all local and national responders, including preparatories, response and coordination.

WORK STREAM 4 - REDUCING MANAGEMENT COSTS

Individual - Individual
1) Increased and supported multi-year institutional capacity investments in the institutional capacities of all local and national responders, including preparatories, response and coordination.
**WORK STREAM 5 - NEEDS ASSESSMENTS**

1. IFRC currently does not have a system which allows it to systematically record multi-year planning information. IFRC has developed a multiyear case for support for migration. We report progress annually. Additionally, we have global flagships we developed 5-year targets and will continue to do so in the future.

---

**WORK STREAM 6 - PARTICIPATION**

1. IFRC has developed a multiyear case for support for migration. IFRC hired an information management expert to mainstream PGI. In our field locations and at headquarters, our training programs and initiatives, which focus on improving accountability to affected people, have been revised. Thanks to IFRC’s thought-leadership at the inter-agency level, many National Societies, supported by IFRC, are exploring or currently coordinating the implementation of PGI.

---

**WORK STREAM 7A - FUNDING**

1. Donors progressively reduced earmarking when channeling donor funds with reduced earmarking to their partners.

---

**WORK STREAM 7B - FINANCED-QUALITY FUNDING**

1. IFRC currently does not have a system which allows it to systematically record multi-year planning information and resource allocations to its partners. Development of an ERP system which could enable us to do so in the future continues. To improve our PGI tracking, we will develop 5-year targets and will report progress annually. Additionally, we have developed a mechanism for support for migration.

---

**WORK STREAM 8 - HARMONISED REPORTING**

1. IFRC currently does not have a system which allows it to systematically record multi-year planning information. IFRC has developed a multiyear case for support for migration. We report progress annually. Additionally, we have global flagships we developed 5-year targets and will continue to do so in the future.

---

**WORK STREAM 9 - HARMONISED REPORTING**

1. IFRC currently does not have a system which allows it to systematically record multi-year planning information. IFRC has developed a multiyear case for support for migration. We report progress annually. Additionally, we have global flagships we developed 5-year targets and will continue to do so in the future.

---

**WORK STREAM 10 - HARMONISED REPORTING**

1. IFRC currently does not have a system which allows it to systematically record multi-year planning information. IFRC has developed a multiyear case for support for migration. We report progress annually. Additionally, we have global flagships we developed 5-year targets and will continue to do so in the future.
